

ULTIMATE CAR CAMPING CHECKLIST

When it comes to car camping, you have the luxury of taking as much as you need. This list is intentionally designed to include everything but the kitchen sink. We encourage you to make it your own but don't hold back on your first trip. Through time you will refine and simplify it. Questions? Suggestions? Never hesitate to reach out to us at customer@ack.com. Happy packing!

*We recommend premium coolers due to the fact that you will require multi-day cooling. In the case of portable sinks, showers and toilets, you will more than likely have access to these amenities when car camping but these are great options if you wish to have them close to your campsite or if unavailable. Solar chargers and car chargers can be used when no electrical is available.
